

Energy Efficiency Country Profile

Primary Energy Intensity

Primary Energy Consumption

Final Energy Consumption - 2009

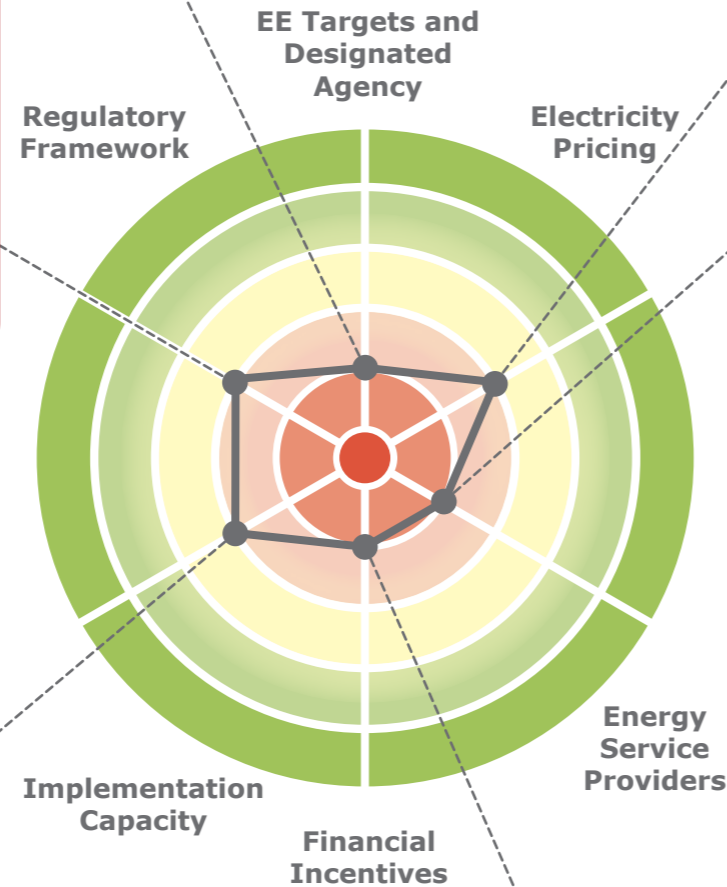

EE Targets and Designated Agency

- No EE targets are adopted.
- No designated EE agency. Currently, activities related to promoting EE fall under the auspices of the working group on EE at the Ministry of Electricity.

Regulatory Framework

- No general legal framework for EE measures.
- Voluntary reference EE specifications for buildings (2012) are adopted.
- No minimum energy performance standards with mandatory labeling schemes are adopted for household appliances.

Electricity Pricing

- Fossil fuel subsidies are large.
- No special tariffs for households to encourage a rational use of energy.
- No time-differentiated price structure for industrial sector to encourage consumption shifting peak hours.

Energy Service Providers

- No energy audits are conducted in residential, tertiary, and industrial sectors.
- No Energy Service Companies (ESCOs).

Electricity Tariffs

	Customers	Tariff (Cent/kWh)
Industrial	>4001 kWh	4.16
Government	2001-4000 kWh	2.5
Commercial	1001-2000 kWh	1.66
Residential	1-1000 kWh	0.83

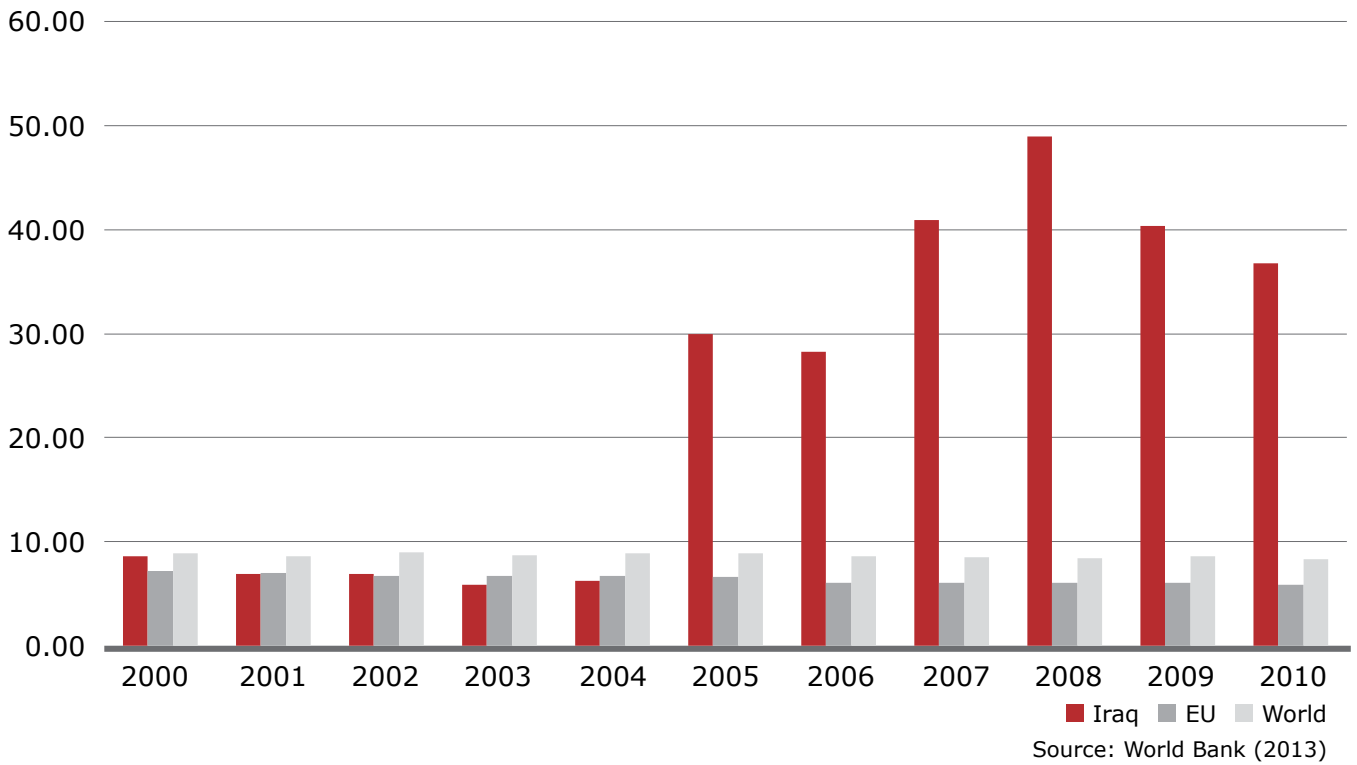

Implementation Capacity

- No Solar Water Heaters are installed.
- No energy-efficient buildings are built.
- No demonstration projects for energy-efficient buildings are built.
- By 2012, 5,000,000 Compact Florescent Lamps are distributed.

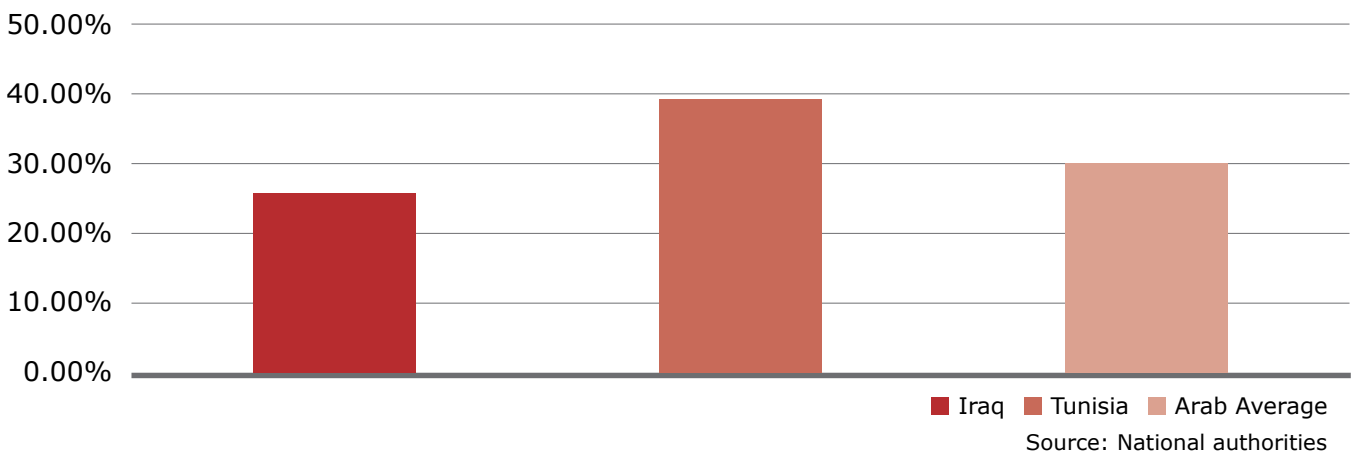

Financial Incentives

- No internal tax benefits for EE projects.
- No EE fund is established for financing EE projects.
- Customs duty on importing Solar Water Heaters and Compact Florescent Lamps is 15%.

Power Transmission and Distribution Losses (in Percentage) - 2010

Power Generation Efficiency - 2009
